Subject: Appreciation for Contributions to NERC's April 2009 Special Report

Chairman Frost:

On behalf of NERC and its Board of Trustees, I want to thank you for your contributions to NERC's recently-completed Special Report, "*Accommodating High Levels of Variable Generation.*" The report has truly laid the foundation for one of the most important resource integration efforts our industry has undertaken. Your work on this ground-breaking report deserves recognition.

To show our appreciation, we've created a special edition of the final report, enclosed for your use.

Expert volunteers are a cornerstone of NERC's success in ensuring the reliability of the bulk power system in North America. As we look to the future, you and your colleagues on the task force will continue to play a critical role in ensuring a safe, secure, and reliable energy future for North America.

Again, thank you for your contribution and dedication.

Regards,

Rick Sergel
President & CEO
NERC
